

**USE CASE:**  
Application Retirement

**INDUSTRY:**  
Financial Services

**COUNTRY:**  
Switzerland

## SYSTEM DECOMMISSIONING SAVES MILLIONS FOR AXA INVESTMENT MANAGERS

AXA is a French multinational insurance firm headquartered in the 8th arrondissement of Paris that engages in global insurance, investment management, and other financial services. The AXA Group operates primarily in Western Europe, North America, the Asia Pacific region, and the Middle East, with a presence also in Africa. AXA is a conglomerate of independently run businesses, operated according to the laws and regulations of many different countries.

**“Over a period of ten years we have saved around one million euros in operating costs. That adds up to approximately a third of what it costs to run our SAP systems in the Real Asset division – and all this after retiring just one system.”**

**Urs Hutter,**  
Senior Project Manager, Real Assets IT, AXA Investment Managers Switzerland Ltd

### SITUATION

- Two old SAP legacy systems with Real Estate, Investment Fund data plus Microsoft Dynamics in the UK
- Systems need to be kept for various regulatory, tax, and compliance reasons for a very long time (30+ years)
- This can be expensive, as systems need to be maintained, kept up to date, and invested in on an ongoing basis, sometimes beyond ten years
- Continuing with the old SAP release and unsupported Dynamics system is difficult or nearly impossible

### SOLUTION

- Decommissioning of SAP and Dynamics system with JiVS History
- Data and document transfer from SAP to JiVS based on the JiVS Plug-in Technology for SAP
- Storage of data in a neutral and readable format
- Easy access with JiVS History SAP Business Content for
  - Finance
  - Investment Funds
  - Real Estate

### BENEFITS

**Readable legacy data for the next decades**

**Functional requirements taken into consideration**

**Cost saving by decommissioning old legacy SAP and Dynamics systems**

**No risk of losing sensitive and important data**
